

**Request for Information No. II**  
**RFP No. 22/23-02 Notification Systems**  
*February 10, 2023*

**Response to Proposers' Questions**

2.1       **Question:** I went to this district page for the information  
<https://iusd.org/about/departments/business-services/facilities-planningconstruction/doing-business-iUSD/prequalified>

But there were no contractors listed.

Valcom provides hardware and software solutions that do, typically, involve State licensed contractors for installation of speakers and other equipment.

**Answer:** Irvine USD does not maintain a prequalified vendor list for the requested type of installation. Instead, Irvine USD issues separate procurements or relies on existing state contracts, including vendors that have CMAS and/or NASPO agreement in place that include installation.

Ed Tech JPA is a large entity, with 123 members. Please keep in mind that each member has their own policies and procedures, which may vary greatly from Irvine USD's practices.
