

Request for Information No. IV

RFP No. 19/20-02 Assessment Platform

October 2, 2019

Response to Proposers' Questions

4.1 Question: Will Vendor execute the DPA upon award or do we need to sign and include in our proposal? What if Vendor wants to propose minor edits to the DPA?

Answer: Ed Tech JPA understands that vendors may need to negotiate contract terms. Awards are made contingent upon successful contract negotiations for agreements, including the California Student Data Privacy Agreement. Vendors who wish to request amendments to the CSDPA may complete a Redline Request form which Ed Tech JPA will submit to the California Student Privacy Alliance for approval. The Redline Request Form may be submitted with vendors' proposals, or prevailing vendors may submit it during contract negotiations.
